

States is NOT better than this. The treatment in here is nothing short of torture, and is worn as a badge of honor by many officers working this unit. I want to reiterate once again that I am not in SMU-A over any disciplinary issue. I have no disciplinary issues since being arrested on Jan 18th, 2021, and have had no disciplinary issues since arriving at this jail on March 9th, 2021. So why am I being punished in Solitary Confinement/Segregation without water for a day? Why am I being punished in Solitary Confinement/Segregation at all for the last 12 days? When is the next time I have to worry and stress about not having water to drink or a toilet to use? For my time in Solitary Confinement, I am asking for the MAX amount I can be awarded in civil court for the problems that Solitary Confinement at DC DOC has caused me. I am also demanding my release from DC DOC due to unconstitutional conditions of confinement. If DC DOC would like to settle before going to court, then you can do so by contacting my attorney, Joseph McBride, at (917)757-9537.
