

3/22/22

Major Talley Conversation

On 3/22/22, at around 5-6 pm, Major Talley approached me at cell 10 in Pod C2B to discuss the grievance I wrote on 3/15/22 about the email Major Marr wrote to her colleagues.

She asked first where I saw the email, and I told her an official copy of the email was floating around the pod, but I did not know who had it. She then asked if we were having an issue with officers in C2B, and I explained that we did, and gave examples of what has been going on. Finally, she instructed me to write these issues in grievances to submit, to which I informed her I had submitted many grievances that had not been answered. Major Talley then tried to "reassure" me by saying, "Just like we have some bad inmates, we also have bad officers too.", and that she would look into these grievance issues and address them with the officers involved. I told her thank you, and we departed ways.

Kelly Meggs was sitting within 4-7 feet, and heard the entire conversation.

I, Kelly Meggs, was not coerced, tricked, or paid to sign this form and witness this event. All of the statements are true.
