REASON FOR APPEAL: In response to IGP (Formal) # 20220420-921: I was not seen for evaluation on 3/25/22. That was to schedule my appointment with a therapist on 3/30/22. On 3/30/22, I was told there was no long term mental health treatment at DC DOC, but would be checked on again in 2 weeks. Today, 3 weeks later, I have still not been checked in on, and my conditions of confinement have become worse, triggering my anxiety and depression that comes with my diagnosed PTSD. My Mental Health Medication was not delivered this morning, even though I asked for it multiple times. I am also now sitting in solitary confinement in segregation as punishment for not signing a form

that has nothing to do with me, over an apparent incident that I was never made aware of, and was not known about until 4/27/22 when the housing board returns. This feels retaliatory and discriminative, as I have open IGP's on this issue. This entire situation is only contributing to a further decline in my mental health.
